

HB-120HM Multi-Angle Single Heat Cutting Machine

| | | | |
|--------------------|-------------------------------------------|-----------------|-----------------------------|
| Model | HB-120HM | Voltage | 110V/220V |
| Brand | Hongxin | Power | 1KW |
| Name | Multi-Angle Single Heat Cutting Machine | Cutting Speed: | Touchscreen Adjustment |
| Cut Tool: | Hot Cutting | Cutting Width: | Blade width 70mm |
| Cutable Materials: | Thin ribbon , Elastic tape, webbing, etc. | Cutting Length: | 1-99999mm can set by screen |

Application scenarios: materials that can be cut

Elastic band

Polyester

wash label

Thin ribbon

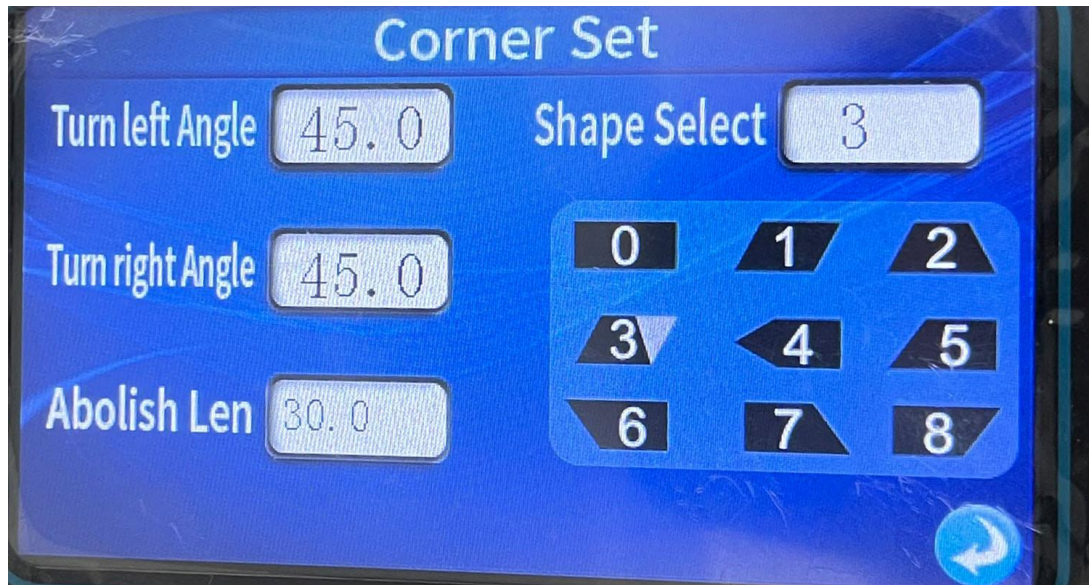

The material feeding motor control prevents problems such as blade sticking and material blockage during thermal cutting.

The blade is heated during cutting, resulting in excellent edge sealing and no burrs.

A high-precision rotary motor controls the blade rotation, enabling it to cut six different shapes.

The touchscreen controls speed, length, shape, cutting angle, and more, allowing for more precise cutting.

The machine has a material shortage alarm and will automatically stop cutting when the material is cut out.

|---------------------|--------------------------|
| List of directives: | EMC Directive 2014/30/EU |
| Test standards: | EN 60204-1-2018 |
| Verdict: | Conform |
| Test report No.: | CTG2506170485N-SR188AN |

The EUT described above has been noted by us with the listed standards and found in compliance with the council EMC Directive 2014/30/EU. Technical file of the applicant mentioned has been inspected and audit has been completed successfully. The certificate applies to the tested sample above mentioned only and shall not imply an assessment of the whole production. It is only valid in connection with the test report number: CTG2506170485N-SR188AN. This one is responsible to start the **CE** marking and certification procedure as required by the legislation in force.

Caution about **CE** marking (instruction for the applicant who puts the product on the EU market): The label of the **CE** marking on the right side should be not less than 5mm height.
CE marking and EC Declaration of Conformity are duties for the manufacturer or its applicant who puts the product on the market.
