

HB-988HP Hot punching hot and cold cutting machine

Model	HB-988HP	Voltage	110V/220V
Punching diameter	The hole diameter can be customized as needed; Hot punch	Power	1000W
Name	Hot punching hot and cold cutting machine	Number of punches	1-40PCS can set by screen
Cut Tool:	Hot and cold	Cutting Width:	Max 40mm
Cutable Materials:	Elastic, nylon webbing, ribbon.	Cutting Length:	1-99999mm

Application scenarios: materials that can be cut

Elastic band

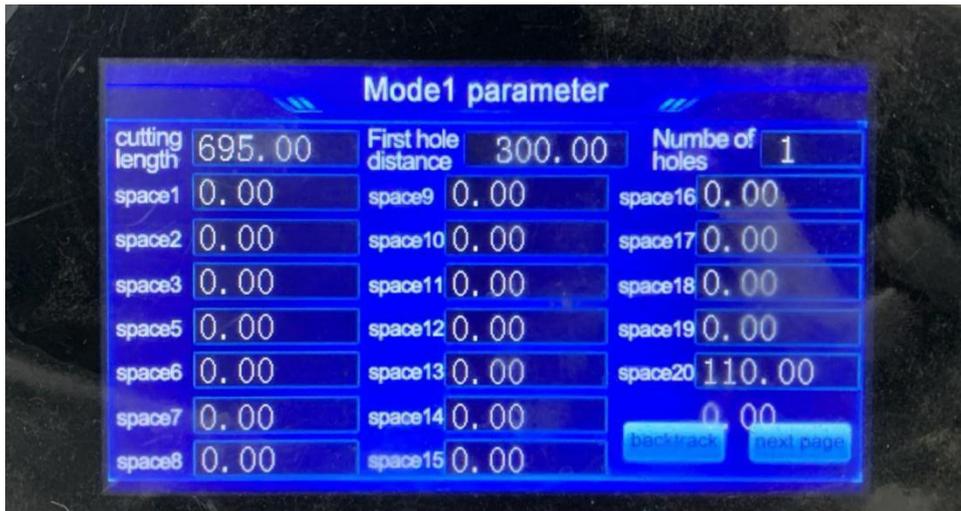

Polyester

wash label

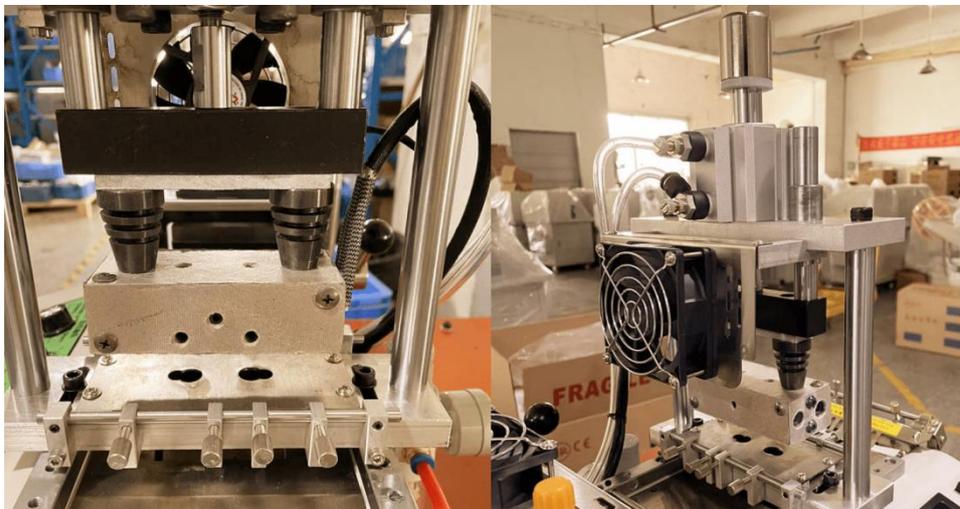

Thin ribbon

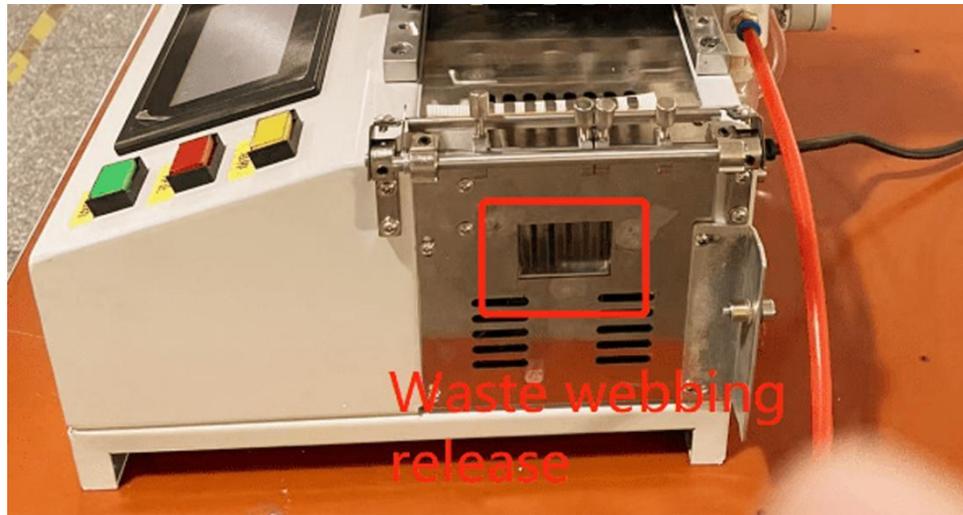

The maximum number of holes punched at one time is 40 pieces. The distance between holes can be set via screen parameters.

Speed and total length can be set via touchscreen.

The punching function is hot punching, with a maximum punching diameter of 5mm. However, one set of molds can only punch one diameter. To punch different diameters, custom molds are required.

Waste material from punching can be discharged through the waste discharge channel.
